Item B. Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

The following discussion and analysis are based on the unaudited interim condensed consolidated financial statements for the nine months ended September 30, 2024 and 2023, prepared in conformity with Philippine Accounting Standards 34, *Interim Financial Reporting* and included herein, and should be read in conjunction with those unaudited interim condensed consolidated financial statements.

Nine months ended September 30, 2024 compared with nine months ended September 30, 2023

Revenues

	2024	2023
	(In Thousands)	
Sale of ore and limestone	₱14,990,227	₱16,959,587
Sale of power	1,022,261	667,655
Services	964,391	1,659,483
	₱16,976,879	₱19,286,725

Revenues during the first three quarters of 2024 were ₱16,976.9 million, lower by ₱2,309.8 million, or 12%, compared to ₱19,286.7 million during the same period last year.

Sale of Ore

Revenues from the sale of ore were down by 12% due to lower nickel ore prices resulting from the nickel oversupply.

The Group's operating mines sold a combined 13.57 million wet metric tons (WMT) of nickel ore during the first three quarters of 2024, or 4% higher than last year's 13.01 million WMT. The weighted average nickel ore sales price during the period dropped by 18% to \$19.09/WMT, compared with \$23.24/WMT in the same period last year. The Group realized ₱57.22/US\$ from these nickel ore sales, a 3% increase from ₱55.64/US\$ year-on-year.

Breaking down the ore sales, the Group exported 8.07 million WMT of saprolite and limonite ore at an average price of \$24.74/WMT during the first three quarters of 2024, compared to 7.29 million WMT at \$29.15/WMT in the same period last year. Similarly, the Group delivered 5.49 million WMT of limonite ore to the Coral Bay and Taganito High-Pressure Acid Leach (HPAL) plants, realizing an average price of \$7.78 per pound of payable nickel. This compares to 5.72 million WMT at \$10.53 per pound of payable nickel during the first three quarters of 2023. Expressed in US\$ per WMT, deliveries to the two HPAL plants generated \$10.78 and \$15.69 in the first three quarters of 2024 and 2023, respectively.

On a per mine basis, the Group's Rio Tuba mine exported 1.20 million WMT of saprolite ore and delivered 1.92 million WMT of limonite ore to the Coral Bay processing plant during the first three quarters of 2024. This compares to sales of 0.93 million WMT of saprolite ore and 2.03 million WMT of limonite ore to the Coral Bay processing plant during the same period last year.

The Group's Taganito mine exported 3.59 million WMT of saprolite and limonite ore and delivered 3.21 million WMT of limonite ore to the Taganito processing plant during the first three quarters of 2024. Compared to the same period last year, there were 3.21 million WMT of saprolite ore and 3.30 million WMT of limonite ore delivered to the Taganito processing plant.

The Group's Hinatuan, Cagdianao, and Dinapigue mines exported 1.52 million WMT, 1.29 million WMT, and 0.47 million WMT, respectively, of saprolite and limonite ore during the first three quarters of 2024, and 1.32 million WMT, 1.57 million WMT, and 0.26 million WMT, respectively, during the first three quarters of 2023. Aside from the limonite ore deliveries from the Rio Tuba mine, the Group's Cagdianao and Dinapigue mines also delivered limonite ore to the Coral Bay processing plant for a total of 0.37 million WMT and 0.39 million WMT during the first three quarters of 2024 and 2023, respectively.

Sale of Limestone

Limestone deliveries to Coral Bay Nickel Corporation (CBNC) jumped by 20%, resulting in the same percentage increase in revenue from the sale of limestone during the first three quarters of 2024 which amounted to ₱167.2 million, compared to ₱139.2 million during the same period last year.

Sale of Power

Revenue from the sale of power during the first three quarters of 2024 amounted to ₱1,022.3 million, or 53% higher than last year's ₱667.7 million, mainly on account of the 57% increase, or 61.6 million kilowatts per hour (kWh), in the generation volume of the Group's power plants due to a significant increase in overall capacity during the current period compared to the same period last year. Aside from this, there was also a 4% increase in the year-on-year average effective price, from ₱5.23/kWh to ₱5.42/kWh.

Services

Service revenue consists mainly of payments for the hauling, manpower, and other ancillary services that CDTN Services Company Inc. (CDTN) and Taganito Mining Corporation (TMC) provide to CBNC, Taganito HPAL Nickel Corporation (THNC), and other third parties. This also includes the usage fee charged by TMC to THNC for the use of its pier facility. Service revenue during the first three quarters of 2023 was higher by ₱695.1 million at ₱1,659.5 million compared to the current period's ₱964.4 million, mainly because of the equipment rental income related to the stabilization of CBNC's TSF-3 project that was completed in December 2023.

Costs

Costs went up by 3%, or ₱206.3 million, from ₱7,409.4 million to ₱7,615.7 million.

	2024	2023
	(In Thousands)	
Cost of sales	₱6,666,269	₱5,997,502
Services	525,827	1,015,824
Power generation	423,644	396,112
	₱7,615,740	₱7,409,438

Cost of Sales

The higher production cost during the current period was attributable to the higher volume handled by the contractors, and some of the mines exceeded their target volume for material movement during the second quarter in preparation for the loading season. Moreover, the volume sold during the first three quarters of 2024 increased by 4%.

Cost of Services

The cost of services declined by 48% from ₱1,015.8 million to ₱525.8 million following the completion of CBNC's TSF-3 project that was handled by CDTN. Thus, the volume of materials handled during the first three quarters of the current year was lower by 47% compared to the same period last year.

Cost of Power Generation

The cost of power generation slightly went up by 7% to ₱423.6 million from ₱396.1 million because of higher generation volume, which increased by 57% compared to the same period in the year prior, as a result of the significant increase in the overall capacity.

Operating Expenses

	2024	2023
	(In Thousands)	
Shipping and loading costs	₱1,717,245	₱1,831,779
Excise taxes and royalties	1,307,362	1,495,440
General and administrative	1,063,098	1,033,334
Marketing	77,743	92,979
	₱4,165,448	₱4,453,532

Shipping and Loading Costs

Shipping and loading costs were down by 6%. During the first three quarters of the prior year, additional landing craft transport was rented because two of RTN's barges were under maintenance, thus the higher cost. Moreover, TMC's loading activities in the prior year started as early as March, while loading in the current period started in the second quarter only.

Excise Taxes and Royalties

Excise taxes and royalties slid by 13% to ₱1,307.4 million from ₱1,495.4 million, due to the 12% decline in revenue from the sale of nickel ore and limestone resulting from lower nickel ore prices during the first three quarters of 2024.

General and Administrative

General and administrative expenses were slightly higher by 3% at ₱1,063.1 million as against ₱1,033.3 million in the year prior, generally because of the increase in personnel costs due to the annual merit increases of the employees, cost of new employees and retirement or severance pay.

Marketing

The marketing cost, which includes commission and is based on a certain percentage of revenue, was lower by 16% during the current period. The commission is based on CMC's revenue only, and CMC's revenue from the sale of ore was 19% lower during the first three quarters of 2024 compared to the same period last year.

Finance Income

Finance income improved by 34% to ₱481.7 million from ₱360.3 million because of the improvements in short-term cash investment rates, around 4.56% during the first three quarters of the current year, compared to around 4.02% during the same period last year.

Finance Expenses

Finance expenses dropped by 23% during the first three quarters of 2024 on account of higher capitalized borrowing costs during the current period particularly for the causeway construction and solar projects of the renewable energy segment.

Equity in Net Loss of Associates

The Parent Company registered a loss from its equity interests in the two HPAL plants in the combined amount of ₱665.3 million during the current period, compared to ₱379.8 million in the year prior. The net loss incurred by the HPAL plants was due to lower metal prices for nickel and cobalt year-on-year.

Other Income (Charges) - Net

Other income - net was at ₱296.5 million during the current period, compared to ₱215.8 million during the same period last year particularly due to higher dividend income from investments and gains recognized from sale of assets and increase in the unrealized gains on valuation of investments.

Provision for Income Tax - Net

As a result of the above, the taxable income during the current period was lower compared to the same period last year, resulting in a 35% slid in the net provision for income tax.

Net Income

As a result of the foregoing, the consolidated net income was ₱3,686.0 million during the first three quarters of 2024, compared to ₱5,194.7 million during the same period last year. Net of non-controlling interests, the net income attributable to the equity holders of the parent for the first three quarters of the current year amounted to ₱2,552.4 million, compared to ₱3,646.0 million during the same period last year.

STATEMENT OF FINANCIAL POSITION

Total assets as of September 30, 2024, were ₱62,037.2 million, compared to ₱57,926.8 million as of December 31, 2023. Current assets slid by 2% to ₱23,016.5 million from ₱23,488.6 million, while noncurrent assets rose by 13%, from ₱34,438.3 million to ₱39,020.7 million, mainly due to the construction of the Phase 1 – 120 megawatts (MW) San Isidro Solar Power Project.

Current liabilities were higher by 16%, from ₱9,990.2 million to ₱11,545.2 million, due to proceeds from additional short-term bank loans of ₱1,110.3 million that was used for the 240MW Leyte Solar Power Project and 140MW Cawag Solar Power Project.

Noncurrent liabilities of ₱4,796.6 million were slightly lower by 1% than the end of last year's ₱4,831.6 million due to payments of long-term bank loans based on the agreed payment terms.

The equity net of non-controlling interests was slightly higher by 4% at ₱37,571.7 million due to the net effect of earnings during the current period and the result of the cumulative translation adjustments.

STATEMENT OF CASH FLOWS

During the first three quarters of 2024, the Group's net cash flows from operating activities amounting to ₱4,129.7 million was lower as against the prior year's ₱6,864.7 million since collections from the sale of ore in the current year were lower on account of lower revenue compared to the year prior.

For the investment activities, the Group spent significant capital expenditures, primarily for the construction of the Dinapigue causeway, re-fleeting of mining equipment, and construction of Phase 1 – 120MW San Isidro Solar Power Project during the first three quarters of the current year, which amounted to ₱5,704.2 million compared to ₱4,866.0 million during the same period last year. However, in the year prior, the Parent Company disposed of some of its investments to minimize the risk and increase its liquidity. As a result, the Group received higher cash proceeds from disposal of investments during the first three quarters of 2023 compared to the same period of the current year.

The Group is in a positive cash position for its financing activities during the first three quarters of 2023 due to the: 1) additional bank loans obtained by Emerging Power Inc. (EPI) and Jobin-SQM, Inc. (JSI) amounting to a total of ₱4,670.5 million, net of debt issue costs, which was used for the construction of JSI's 72MW solar project, San Isidro Solar Power Corp.'s 240MW Leyte Solar Power Project and Northern Palawan Power Generation Corporation's (NPPGC) 140MW Cawag Solar Power Project; 2) new loans obtained by Dinapigue Mining Corporation (DMC) amounting to ₱246.2 million for the construction of its permanent causeway; and 3) additional equity call of Greenlight Renewables Holdings Inc. (GRHI). Compared to the current period, the Group only drew ₱1,170.7 million in bank loans for the completion of the causeway and as additional fund for the Group's solar projects.

As of September 30, 2024 and 2023, cash and cash equivalents amounted to ₱13,204.3 million and ₱17,546.4 million, respectively.

KEY PERFORMANCE INDICATORS

1) TOTAL COST PER VOLUME SOLD

The total cost per volume of ore sold provides a cost profile for each operating mine and allows us to measure and compare operating performance as well as changes in per unit costs from period to period.

The total cost includes the cost of sale of ore, shipping and loading costs, excise taxes and royalties, general and administrative, and marketing incurred by the Group.

The average cost per volume of nickel ore sold for the first three quarters of 2024 was ₱776/WMT based on aggregate costs of ₱10,528.9 million and total sales volume of 13.57 million WMT of ore.

This compares to ₱775/WMT during the first three quarters of 2023 based on aggregate costs of ₱10,085.1 million and total sales volume of 13.01 million WMT of ore.

2) ATTRIBUTABLE NET INCOME

Attributable net income represents the portion of consolidated profit or loss for the period, net of income taxes, which is attributable to the Parent Company. This is a relevant and transparent metric of the information contained in the consolidated financial statements. The income attributable to equity holders of the Parent Company for the first three quarters of 2024 was ₱2,552.4 million compared to ₱3,646.0 million in the same period last year.

3) NUMBER OF HECTARES OF OPEN AREA PER MILLION WMT SOLD

The Group adheres to the principles and practices of sustainable development. The Group is committed to complying with and following environmental regulations by implementing best practices in managing the environmental impact of its operations. In 2018, the Department of Environment and Natural Resources (DENR), through the issuance of DENR Administrative Order (DAO) No. 2018-20, prescribes Guidelines for Additional Environmental Measures for Operating Surface Metallic Mines and provides limits of maximum disturbed areas for nickel mines depending on the scale of their mining operations. The DAO also requires that temporary revegetation be immediately implemented on the disturbed areas. During the first three quarters of 2024 and 2023, there were around 21 and 24 open hectares per million WMT sold, respectively.

4) FREQUENCY RATE

Health and safety are integral parts of the Group's personnel policies. Its comprehensive safety program is designed to minimize risks to health arising out of work activities and to assure compliance with occupational health and safety standards and rules and regulations that apply to its operations. The Group measures our safety effectiveness through the Frequency Rate which is the ratio of lost-time accidents to total million man-hours worked for the period. The Group's frequency rate was nil for both the first three quarters of 2024 and 2023.

Recent Developments

Power

- The following wholly owned subsidiaries of EPI were incorporated in February 2024: 1) Emerging Energy Resources, 1, Inc.; 2) Emerging Energy Resources, 2, Inc.; 3) Emerging Energy Resources, 3, Inc.; and 4) Emerging Energy Saver Corporation.
- On February 28, 2024, JSI received the Provisional Certificate of Approval to Connect - Subic Photovoltaic Phase 4A - 72MW from the National Grid Corporation of the Philippines (NGCP), subject to the completion of certain conditions. In the same month, JSI successfully activated the additional 72MW solar capacity at its facility located at Sta. Rita, Subic Bay Freeport Zone, Zambales, thereby expanding its capacity to 172MW.
- On May 3, 2024, the Department of Energy (DOE) notified Mindoro Geothermal Power Corporation (MGPC) that Geothermal Renewable Energy Service Contract (GRESK) No. 2010-02-013 between the DOE and MGPC was terminated due to the latter's delay in complying with its work commitments under the approved Work Program for the years 2021 to 2023. MGPC appealed against the termination of the service contract.
- After a thorough review of the documents submitted by MGPC, the DOE granted on July 5, 2024 the reinstatement of GRESK No. 2010-02-013 and approved the proposed 5-year Work Program, subject to non-negotiable milestones. MGPC's failure to comply with the milestone shall result in the termination with finality of the GRESK.

- Pre-development activities on first phase of NPPGC's 145MW Cawag Solar Power Project are almost complete, with construction expected to begin by the fourth quarter of 2024 and target energization by third quarter of 2025. On August 30, 2024, NPPGC has received the Facility Study Final Review Report from the NGCP.

Mining

- The construction of the Dinapigue causeway project was completed in July 2024 but is still awaiting formal acceptance of project completion.

Liquidity and Capital Resources

As at September 30, 2024 and December 31, 2023, the Group's principal source of liquidity was cash from operations. TMC incurred long-term debt to finance the construction of the Taganito pier facilities. TMC receives income from THNC under a throughput agreement for the use of the pier facilities. The revenues that TMC receives from THNC under the throughput agreement have typically been sufficient to service its long-term debt. In addition, the Group also incurred short-term and/or long-term debts to finance the solar projects of JSI, GRHI and NPPGC, the geothermal exploration and evaluation assets of MGPC and the permanent causeway of DMC. Any revenue that will be earned by JSI, GRHI, NPPGC, MGPC and DMC upon start of or during their commercial operations will be used to pay-off the debt.

As at September 30, 2024 and December 31, 2023, the Group's working capital, defined as the difference between the current assets and current liabilities, was ₱11,471.4 million and ₱13,498.4 million, respectively. The Company expects to meet the working capital, capital expenditure and investment requirements from the cash flow coming from operations and pay-off the debts that the Group incurred to finance the construction of pier facilities at the Taganito properties, the construction of the permanent causeway in Dinapigue, and the solar project and other project development costs of EPI, JSI, GRHI and NPPGC. The Group may also from time to time seek other sources of funding, which may include debt or equity financing, depending on the financing needs and market conditions.

Qualitative and Quantitative Disclosures about Market Risk

Commodity Price Risk

The price of nickel is subject to fluctuations driven primarily by changes in global demand and global production of similar and competitive mineral products. This, therefore, required the Group to change the pricing mechanism on the sale of saprolite ore to Japanese customers, which was traditionally linked to London Metal Exchange (LME) prices, to a negotiated price per WMT of ore, similar to the pricing of ore to China. The price of limonite ore is closely correlated to the international iron ore price index. The prices of nickel ore delivered to CBNC and THNC are determined based on a payable percentage of the nickel contained in the ore delivered and a formula related to LME prices over the period the nickel ore was delivered. To mitigate the impact of such price movements, the Group may opt to enter commodity put option contracts.

Foreign Currency Risk

The foreign currency risk results primarily from movements of the peso against the US\$ on transactions in currencies other than the Peso. Such exposure arises mainly from cash and cash equivalents, financial assets in debt and equity securities, long-term debt and sales of beneficiated nickel ore denominated in US\$. Because almost all the revenues are earned in US\$ while most of the expenses are paid in Peso, appreciation of the Peso against the US\$ effectively reduces the revenue without a corresponding reduction in the expenses and can result in a reduction in the net income. In addition, because a portion of the cash and cash equivalents, financial assets in debt and equity securities and

long-term debt are denominated in US\$, the appreciation of the peso against the US dollar reduces the value of the total assets and liabilities in peso terms in the consolidated financial statements.

To mitigate the effect of foreign currency risk, the Group:

- seek to accelerate the collection of foreign currency-denominated receivables and the settlement of foreign-currency denominated payables, whenever practicable;
- Monitor daily the foreign exchange movements; and
- Uses derivatives, particularly currency options, as cash flow hedges to reduce exposure to market risk.

Equity Price Risk

Equity price risk is the risk to earnings or capital arising from changes in stock prices relating to the quoted equity securities owned by the Group. The Group's exposure to equity price risk relates primarily to the financial assets in various stocks of listed companies.

The Group's policy is to maintain the risk to an acceptable level. Movement in the share price and market value of the assets are monitored regularly to determine the impact on the financial position.

Seasonality of Operations

Mining operations at the majority of the Group's mines are often unable to load ore into shipping vessels during the rainy season. This seasonality results in quarter-to-quarter volatility in the Group's operating results with more revenue being earned and more expenses being incurred in the second and third fiscal quarters than in the first and fourth fiscal quarters.

Off-balance Sheet Arrangements

Under the Suretyship Agreement executed by and between the Parent Company and Security Bank Corporation (SBC) on August 4, 2015, the Parent Company solidarily with EPI guarantees and warrants to SBC, its assigns and successors-in-interest, prompt and full payment and performance of EPI's obligations to SBC.

On August 2, 2021, JSI entered into an Omnibus Loan and Security Agreement to document the syndicated loan with two (2) banks as lenders, i.e., Industrial and Commercial Bank of China and SBC, with the Parent Company forming part of the Share Collateral Security Grantors and Sponsors together with EPI and TBEA International Engineering Co., Ltd. The principal loan was used to partly refinance the shareholders' loans used for the Phase 3A and 3B expansions. Payment of the loan is secured by chattel mortgage on all project assets, mortgage over the leasehold rights with Subic Bay Metropolitan Authority, and the pledge of shares of stocks of JSI.

Other than those mentioned above, the Parent Company has not entered into any off-balance sheet transactions or obligations (including contingent obligations), or other relationships with unconsolidated entities or other persons.

Known Trends, Events, or Uncertainties

Cancellation of Hinatuan Mining Corporation's (HMC) Mineral Production Sharing Agreement (MPSA)

On February 13, 2017, HMC, a wholly owned subsidiary of the Parent Company, received a letter from the DENR stating that its MPSA in Taganaan Island, Surigao is being cancelled due to alleged violations of Republic Act No. 7942 or the Philippine Mining Act of 1995 as a result of the audit conducted in July 2016. On February 17, 2017, HMC filed a Notice of Appeal with the Office of the President. It is the Parent Company's position that there are no legal and technical grounds to support the cancellation of HMC's MPSA.

The Parent Company will pursue all legal remedies to overturn the said order because of due process violations and the absence of any basis that would warrant a suspension of HMC's operations, much less the cancellation of its MPSA. During the first three quarters of 2024 and 2023, HMC's tonnage consists of 11% and 10%, respectively, of the Group's total ore sold.

Termination of MGPC's GRESC No. 2010-02-013

On May 3, 2024, the DOE notified MGPC that GRESC No. 2010-02-013 between the DOE and MGPC was terminated due to the latter's delay in complying with its work commitments under the approved Work Program for the years 2021 to 2023. MGPC appealed against the termination of the service contract.

After a thorough review of the documents submitted by MGPC, the DOE granted on July 5, 2024 the reinstatement of GRESC No. 2010-02-013 and approved the proposed 5-year Work Program, subject to non-negotiable milestones. MGPC's failure to comply with the milestone shall result in the termination with finality of the GRESC.

As at September 30, 2024, except for what has been noted in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Group;
- Material commitments for capital expenditures that are reasonably expected to have a material impact on the Group's short-term or long-term liquidity;
- Known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations;
- Significant elements of income or loss that did not arise from the Group's continuing operations;
- Seasonal aspects that had a material impact on the Group's results of operations; and
- Material changes in the financial statements of the Group for the periods ended September 30, 2024 and December 31, 2023, except those mentioned in the preceding.
- Known event that will trigger direct or contingent financial obligation that is material to the Group, including any default or acceleration of an obligation that have not been booked, although the Group could be contingently liable for lawsuits and claims arising from the ordinary course of business, which contingencies are not presently determinable.

The unaudited interim condensed consolidated financial statements as at September 30, 2024 and December 31, 2023 and for the nine-month period ended September 30, 2024 and 2023, were authorized for issuance by the Parent Company's BOD on November 13, 2024.

2. Basis of Preparation and Consolidation and Statement of Compliance

Basis of Preparation

The accompanying unaudited interim condensed consolidated financial statements of the Group as at September 30, 2024 and for the nine-month period ended September 30, 2024 and 2023 have been prepared in accordance with Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*.

Accordingly, the unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual audited consolidated financial statements as at December 31, 2023.

The unaudited interim condensed consolidated financial statements have been prepared on a historical cost basis, except for financial assets at FVTPL and at FVOCI and derivative instruments, which are measured at fair value. The unaudited interim condensed consolidated financial statements are presented in Philippine peso, which is the Parent Company and its subsidiaries' (collectively referred to as the Group) functional and presentation (or reporting) currency, except CPDL whose functional and reporting currency is in United States dollar (US\$). All amounts are rounded to the nearest thousand (₱000), except when otherwise indicated.

Basis of Consolidation

The unaudited interim condensed consolidated financial statements include the balances of the subsidiaries and equity share in the net income or loss of associates:

The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company using uniform accounting policies. When necessary, adjustments are made to the separate financial statements of the subsidiaries to bring their accounting policies in line with the Group's accounting policies.

Statement of Compliance

The unaudited interim condensed consolidated financial statements of the Group have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs).

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended December 31, 2023, except for the adoption of the following amendments to existing standards and/or interpretations, which were effective beginning January 1, 2024.

Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

- Amendments to PAS 1, *Classification of Liabilities as Current or Noncurrent*
The amendments clarify:
 - That only covenants with which an entity must comply on or before the financial reporting date will affect a liability's classification as current or non-current.
 - That classification is unaffected by the likelihood that an entity will exercise its deferral right.
 - That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.
- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

Standards and Interpretations Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*
- Amendments to PAS 21, *Lack of Exchangeability*

Deferred Effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The Group will continue to evaluate the impact of the standards, interpretations, and amendments in its consolidated financial statements for the year 2024. Additional disclosures required by these amendments will be included in the Group's consolidated financial statements when these amendments are adopted.

3. Seasonality of Operations

Mining operations at the majority of the Group's mines are often unable to load ore into shipping vessels during the rainy season. This seasonality results in quarter-to-quarter volatility in the Group's operating results with more revenue being earned and more expenses being incurred in the second and third fiscal quarters than in the first and fourth fiscal quarters.

THNC

THNC, a private entity that is not listed on any public exchange, was incorporated and registered with the Philippine SEC on August 22, 2008. THNC is engaged in the manufacture and export of nickel/cobalt mixed sulfide, nickel hydroxide and any and all ingredient and products and by-products, wherein TMC has a Nickel Ore Supply Agreement to supply all of the limonite ore requirements of the Taganito High Pressure Acid Leach (HPAL) facility. TMC also provides services related to the handling, hauling and transportation of materials

required in the processing operations of THNC. THNC started commercial operations in October 2013.

The net assets and Parent Company's share in cumulative translation adjustment of THNC amounted to ₱33,263.4 million and ₱698.8 million, respectively, as at September 30, 2024, and ₱34,452.3 million and ₱238.2 million, respectively, as at December 31, 2023. For the nine months ended September 30, 2024 and 2023, the results of THNC's operations were net loss of ₱1,627.3 million and net income of ₱629.7 million, respectively, and the Parent Company's equity in THNC amounted to ₱162.7 million loss and ₱63.0 million income, respectively.

CBNC

CBNC, a private entity that is not listed on any public exchange, was incorporated and registered with the Philippine SEC on April 4, 2002. CBNC is engaged in the manufacture and export of nickel/cobalt mixed sulfide wherein RTN has a Nickel Ore Supply Agreement to supply all of the limonite ore requirements of the Coral Bay Hydro Metallurgical Processing Plant facility. The agreement provides that it will terminate until the earlier of the cessation of operations at the Coral Bay HPAL facility and exhaustion of the limonite ore reserves at the Rio Tuba mine. Aside from supplying ore and limestone from RTN, CDTN also provided ancillary services to Coral Bay HPAL facility.

On October 3, 2022, the Parent Company purchased an additional 33,046,875 common shares of CBNC from Sumitomo Metal Mining Co., Ltd. (SMM) for a total consideration of US\$25.9 million, equivalent to ₱1,530.3 million. The acquisition by the Parent Company of the additional CBNC shares increased its equity ownership from 10% to 15.62%.

The net assets and Parent Company's share in cumulative translation adjustment of CBNC amounted to ₱23,806.8 million and ₱680.4 million, respectively, as at September 30, 2024, and ₱26,650.4 million and ₱630.9 million, respectively, as at December 31, 2023. For the nine months ended September 30, 2024 and 2023, the results of CBNC's operations were net loss of ₱3,216.1 million and ₱2,830.1 million, respectively, and the Parent Company's equity in net losses of CBNC amounted to ₱502.5 million and ₱442.2 million, respectively.

BGI

BGI, a private entity that is not listed on any public exchange, was incorporated, and registered with the Philippine SEC on October 31, 2007. The principal activities of BGI are to explore, exploit, discover, develop, extract, dig and drill for, produce, utilize, refine, treat, process, transport, store, market, sell, use, supply, experiment with, distribute, manufacture, or otherwise deal in, any substance, minerals or otherwise, which by itself or in contribution with other substances generate or emanate heat or power and to enter into and perform service contracts including geothermal services.

On December 20, 2022, BHI sold a portion of its shareholdings in BGI, equivalent to 461,250 common shares or 15% interest in BGI, for ₱0.5 million. After the sale, BHI's equity ownership in BGI decreased from 60% to 45%, resulting in a loss of control in BGI in 2022.

The net liabilities of BGI amounted to ₱448.2 million and ₱443.1 million as at September 30, 2024 and December 31, 2023, respectively. For the nine months ended September 30, 2024 and 2023, the Parent Company's equity in net loss of BGI amounted to nil and ₱0.6 million, respectively.

For the nine months ended September 30, 2024 and 2023, the unrecognized equity in net losses of BGI amounted to ₱2.3 million and nil, respectively.

10. Geothermal Exploration and Evaluation Assets

Geothermal exploration and evaluation assets represent the accumulated costs incurred in connection with the exploration and development activities for the Montelago Geothermal Project. The recovery of these costs depends upon determination of technical feasibility, success of exploration activities and discovery of geothermal resource that can be produced in commercial quantities.

As at September 30, 2024 and December 31, 2023, no allowance for impairment losses was recognized on geothermal exploration and evaluation assets since its value in use is higher than its carrying amount.

11. Trade and Other Payables

Trade and other payables include amounts payable to regular suppliers, accrued expenses, government payables and other payables. Trade, accrued expenses and other payables, are noninterest-bearing and are generally settled in one (1) year. Government payables include withholding taxes which are normally settled within ten (10) to fifteen (15) days after the end of each financial reporting month or thirty (30) days after the end of each financial reporting quarter, and fringe benefit tax which are normally settled within thirty (30) days after the end of the quarter on which the fringe benefits are granted to the recipients. Excise tax payable is settled within fifteen (15) days after the end of the quarter when the beneficiated nickel ore and limestone were shipped/delivered. Royalties are paid on or before the deadline agreed with the Mines and Geosciences Bureau or other parties.

12. Short-term and Long-term Debts

Short-term debts

Short-term debts of EPI are as follows:

	September 30, 2024 (Unaudited)	December 31, 2023 (Audited)
SBC	₱3,493,428	₱3,495,641
Rizal Commercial Banking Corporation (RCBC)	3,480,349	2,352,454
	₱6,973,777	₱5,848,095

SBC

SBC granted a ₱3,500.0 million loan facility to EPI which is secured by a continuing suretyship of the Parent Company. The proceeds of the loans were used by EPI to settle at maturity dates the promissory notes under the original SBC loan facility and to finance the construction of JSI's Phase 4A - 72MW solar project.

Details of the drawdowns are as follows:

Drawdown Date	Maturity Date	Interest Rate*	Amount	Debt Issue Costs

The Term Loan Agreement with SBC provides for restrictions with respect to creation or permission to exist any mortgage or pledge, lien or any encumbrance on all free assets owned or acquired by EPI. Also, the Term Loan Agreement restricts EPI to assume, guarantee, endorse or otherwise become directly or contingently liable in connection with any obligation of any other person, firm or corporation; participate or enter into any merger or consolidation; sell, lease, dispose or convey all or substantially all of EPI's assets; make advances or loans to any of the affiliates, subsidiaries, stockholders, directors and officers except in compliance with formally established and existing fringe benefit program of EPI; suspend its business operation or dissolve its affairs; and to enter into any credit or loan agreement or arrangement with any creditor under such terms and conditions that would place SBC in an inferior position risk-wise, vis-a-vis such other creditors. Moreover, the Term Loan Agreement provides for certain conditions, which include, among others, prompt disclosure in writing of any material change in EPI's financial position and conduct of its operations or any substantial change in its management or ownership, conduct operations in accordance with sound business practice, maintenance and preservation of corporate existence, and prompt payment of all taxes, assessment, and other governmental charges due. As at September 30, 2024 and December 31, 2023, EPI has been compliant with the covenants contained in the loan facility and agreements.

RCBC

RCBC granted a ₱3,500.0 million loan facility to EPI to fund the following projects: 1) SISPC's 240MW Leyte Solar Power Project; and 2) NPPGC's 140MW Cawag Solar Power Project. The principal and interest are payable one (1) year after drawdown.

Details of the drawdowns are as follows:

JSI LoansICBC and SBC

On August 2, 2021, JSI, ICBC and SBC entered into an Omnibus Loan and Security Agreement (OLSA), with NAC, EPI and TBEA International Engineering Co., Ltd. (TBEA) as Share Collateral Security Grantors and Sponsors. Pursuant to the OLSA, ICBC and SBC granted term loan facilities to JSI amounting to ₱1,600.0 million, payable in two Tranches (Tranche A for ₱1,250.0 million and Tranche B for ₱350.0 million), that will be used by JSI to partially refinance the shareholder's loans used for Phase 3A and 3B expansions.

Interest is fixed, which shall be the higher of the sum of the applicable benchmark rate (or the average of the applicable seven (7)-year Bloomberg Evaluated Pricing Service of Bloomberg LP (or BVAL) benchmark tenor) plus the credit spread, divided by the interest premium factor; and the minimum interest rate divided by the interest premium factor. Principal and interest are payable quarterly for a period of seven (7) years commencing on September 28, 2022 until June 28, 2029.

Details of the drawdown follows:

Tranche	Drawdown Date	Maturity Date	Interest Rate	Amount	Debt Issue Costs
A	June 28, 2022	June 28, 2029	6.59% ¹	₱1,250,000	₱31,899
B	April 28, 2023	June 28, 2029	8.20% ²	350,000	—
				₱1,600,000	₱31,899

¹ Fixed interest rate from June 28, 2022 to June 28, 2024; thereafter repriced at 7.75%

² Fixed interest rate from April 28, 2023 to June 28, 2024; thereafter repriced at 7.75%

At any time after the fifth (5th) year of the loan, JSI may prepay all or any portion of the outstanding loan subject to certain conditions and by paying the prepayment penalty.

The loan is secured by a chattel mortgage on all project assets, mortgage over the leasehold rights with Subic Bay Metropolitan Authority, and the pledge of shares of stocks of JSI.

The OLSA provides certain debt covenants, but are not limited to the following:

- 1) Debt service coverage ratio (DSCR) is at least equal to the maintenance DSCR, subject to testing at each DSCR testing date;
- 2) Debt-to-equity (DE) ratio does not exceed the maintenance DE, subject to testing at each DE testing date;
- 3) To create, permit or enter into any loan facility agreement secured or to be secured by a lien of the whole or any portion of its present and future assets other than any permitted lien;
- 4) To incur any indebtedness for the purpose of paying dividends on its preferred shares;
- 5) To enter into any investment, joint venture, partnership or similar business combination or arrangement in relation to the project or otherwise;
- 6) To pay dividends to its shareholders, repay any shareholder loans and make any other payment to shareholders or its affiliates under any project document;
- 7) To sell or dispose any assets;
- 8) To withdraw from the debt service reserve account, except in accordance with the financing documents.

As at September 30, 2024 and December 31, 2023, JSI has been compliant with the covenants contained in the OLSA.

The carrying amounts of long-term debts of JSI with ICBC and SBC, net of unamortized debt issue cost, follows:

	September 30, 2024 (Unaudited)	December 31, 2023 (Audited)

The Term Loan Agreement of DMC with SBC provides for certain conditions and/or restrictions, but are not limited to the following:

- 1) DE ratio of at most 1.50x defined as total liabilities less advances from stockholders divided by total equity plus advances from stockholders.
- 2) DSCR of at least 1.15x defined as earnings before interest, taxes, depreciation, and amortization divided by interest expense plus prior year's current portion of long-term debt.
- 3) The borrower shall only pay interest on any subordinated loans, pay dividends, and repay any portion of its subordinated loans and/or advances from stockholders provided that the distribution DSCR is at least 1.25x and DMC's DE ratio should not be more than 1.50x.
- 4) As long as any of the credit obligations remain unpaid, DMC will not, without prior written consent of SBC, create or permit to exist any mortgage or pledge lien or any encumbrance on all free assets now owned or hereafter acquired by DMC.

As at September 30, 2024 and December 31, 2023, DMC has been compliant with the covenants contained in the loan facility and agreements.

13. Provision for Mine Rehabilitation and Decommissioning

Provision for mine rehabilitation and decommissioning pertains to the estimated decommissioning costs to be incurred in the future on the mined-out areas of the Group.

The Group makes a full provision for the future cost of rehabilitating the mine site and related production facilities on a discounted basis on the development of mines or installation of those facilities. The rehabilitation provision represents the present value of rehabilitation costs. These provisions have been created based on the Group's internal estimates. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates are reviewed regularly to consider any material changes to the assumptions. However, actual rehabilitation costs will ultimately depend upon future market prices for the necessary decommissioning works required which will reflect market conditions at the relevant time. Furthermore, the timing of rehabilitation is likely to depend on when the mine ceases to produce at economically viable rates. This, in turn, will depend upon future ore prices, which are inherently uncertain.

For the nine months ended September 30, 2024 and 2023, accretion of interest on provision for mine rehabilitation and decommissioning amounted to ₱18.7 million and ₱17.1 million, respectively (see Note 26).

15. Executive Stock Option Plan**2018 ESOP**

On April 5, 2018, the Plan was approved by the Parent Company's BOD and was ratified by the stockholders on May 28, 2018. On February 18, 2020, the Plan was approved by the SEC. The basic terms and conditions of the Plan are as follows:

1. The Plan covers up to 375 million shares, allocated to the Parent Company's eligible participants, such as the directors and officers of the Parent Company and its operating subsidiaries, including CEXCI, specifically those with positions of Assistant Vice President and higher, including the Resident Mine Managers of the subsidiaries.
2. The grant dates are from June 15, 2018 to June 3, 2022 and exercise prices, after the effect of stock dividends, ranges from ₱1.47 to ₱6.31.
3. The term of the Plan is five (5) years and the shares vested to the participant yearly at a rate of 25% after the first year of the Plan.

The fair value of the stock option ranges from ₱0.11 to ₱2.90, which was estimated as at grant date using the Black Scholes-Merton model, taking into consideration the terms and conditions upon which the options were granted.

On September 15, 2022, the SEC approved the exemption from registration of the additional 220 million common shares which shall form part of the ESOP. On December 21, 2022, the Parent Company's BOD approved to extend the exercise period of the options under the Plan until December 13, 2023. On February 3, 2023, the PSE approved the listing of up to 304,345,014 unissued common shares to cover the 2018 ESOP.

The movements in the cost of share-based payment plan included in equity are as follows:

Terms and Conditions of Transactions with Related Parties

All sales to and purchases from related parties are made at prevailing market prices. Outstanding balances as at September 30, 2024 and December 31, 2023 that pertain to the extension and receipt of advances to and from related parties are unsecured, short-term, interest-free and settlement occurs in cash. Except for the guarantee on THNC's, EPI's and JSI's Loan Obligations, there have been no guarantees received or provided for any related party receivables or payables, respectively. This assessment is undertaken at each end of the financial reporting period through the examination of the financial position of the related party and the market in which the related party operates.

Compensation of Key Management Personnel

The Group considers as key management personnel all employees holding managerial positions up to the chairman. The short-term benefits of key management personnel of the Group for the nine months ended September 30, 2024 and 2023 amounted to about ₱286.0 million and ₱285.5 million, respectively.

30. Leases

The rollforward analysis of lease liabilities, discounted using incremental borrowing rate, follows:

	September 30, 2024 (Unaudited)	December 31, 2023 (Audited)
Balances at January 1	₱833,421	₱611,169
Payments	(56,038)	(75,761)
Accretion of interest (see Note 26)	53,576	63,704
Addition	–	236,295
Reversal	–	(1,986)
Balances at end of period	830,959	833,421
Less noncurrent portion	808,661	779,075
Current portion	₱22,298	₱54,346

For the nine months ended September 30, 2024 and 2023, the accretion of interest on lease liabilities amounted to ₱53.6 million and ₱45.8 million, respectively (see Note 26), while the amortization of ROU assets included in "Property and equipment" amounted to ₱47.0 million and ₱37.9 million, respectively.

31. Income Taxes

The provision for (benefit from) income tax shown in the unaudited interim condensed consolidated statements of income includes:

	For the nine-month period ended September 30	
	2024	2023
	(Unaudited)	
Current	₱1,298,483	₱1,880,251
Deferred	(31,791)	80,546
	₱1,266,692	₱1,960,797

32. Financial Instruments

The following method and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such values:

Cash and Cash Equivalents

The carrying amount of cash and cash equivalents approximates its fair value due to the short-term nature and maturity of this financial instrument.

Trade and Other Receivables, Trade and Other Payables and Short-term Debts

Similarly, the carrying amounts of trade and other receivables, trade and other payables and short-term debts approximate their fair values due to the short-term nature of these accounts.

Financial Assets at FVTPL and at FVOCI

The fair values were determined by reference to market bid quotes as at the end of the financial reporting period. Upon adoption of PFRS 9, the Group used the net asset approach with consideration of lack of marketability discount and lack of control discount in determining the fair value of unquoted equity securities since the fair value measurement is unobservable (Level 3).

Financial Assets at Amortized Cost

The carrying amount of financial assets at amortized cost, which is measured using the effective interest rate (EIR), is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR.

MRF, Restricted Cash and Social Development Management Program (SDMP) Funds

The carrying amounts of MRF, restricted cash and SDMP funds approximate their fair values since they are restricted cash with banks, which earn interest based on prevailing market rates repriced monthly.

Long-term Debts

The fair values of long-term debts are based on the present value of future cash flows discounted using applicable risk-free rates for similar types of loans adjusted for credit risk.

Fair Value Hierarchy of Financial Instruments

As at September 30, 2024 and December 31, 2023, the fair value of the quoted debt and equity securities at the close of the business is the quoted market price (Level 1) and the fair value of unquoted equity securities is determined using the net asset approach since the fair value measurement is unobservable (Level 3).

As at September 30, 2024 and December 31, 2023, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

Derivative Designated as Hedging Instruments***Cash Flow Hedges – Currency Forwards***

As part of the Group's asset and liability management, the Group uses derivatives, particularly currency forwards, as cash flow hedges to reduce its exposure to foreign currency risks. Foreign exchange forward contracts are designated as hedging instruments in cash flow hedges of forecast sales in US\$. The forecast transactions are highly probable, and they comprise about 30%-50% of the Group's total expected sales in US\$. The foreign exchange forward contract balances vary with the level of expected foreign currency sales and changes in foreign exchange forward rates.

The Group entered into currency forwards with a total amount of US\$82.1 million and initial fair value of ₱4,738.1 million. The Group recognized realized and unrealized gains on forward contracts amounting to ₱8.6 million, which is included under "Other income", and ₱56.8 million, which is recognized in "Other comprehensive income", respectively, for the nine months ended September 30, 2024 and nil for the nine months ended September 30, 2023. The Group's currency forwards as of September 30, 2024 amounted to US\$37.5 million with total fair value of ₱2,165.7 million.

33. Business Segment Information

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The mining segment is engaged in the mining and exploration of nickel saprolite and limonite ore and limestone.

The services segment is engaged in the construction and rendering of services to CBNC, THNC and other parties.

The power segment is engaged in power generation and exploration for geothermal resources.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. The Group is also using net income (loss) in evaluating total performance. Net income is the performance of business segments based on a measure of recurring profit. This measurement basis is determined as profit attributable to equity holders of the Parent Company.

Segment assets include all operating assets used by a segment and consist principally of cash and cash equivalents, trade and other receivables, inventories, financial assets at FVTPL, at FVOCI and at amortized cost, prepayments and other current assets, property and equipment, investments in associates, geothermal exploration and evaluation assets, and other noncurrent assets. Segment liabilities include all operating liabilities and consist principally of trade and other payables, short-term and long-term debts and other liabilities. Segment assets and liabilities do not include deferred income taxes.

The amounts of segment assets and liabilities and segment profit or loss are based on measurement principles that are similar to those used in measuring assets and liabilities and profit or loss in the consolidated financial statements, which are in accordance with PFRSs. There were no changes from prior periods in the measurement methods used to determine reported segment profit or loss and the effect, if any, of those changes on the measure of segment profit or loss.

The Group's identified reportable segments are consistent with the segments reported to the BOD, which is the Chief Operating Decision Maker of the Group.

Financial information on the operation of the various business segments is set out on next page.

34. Other Matter

On May 3, 2024, the DOE notified MGPC that GRESC No. 2010-02-013 between the DOE and MGPC was terminated due to the latter's delay in complying with its work commitments under the approved Work Program for the years 2021 to 2023. MGPC appealed the termination of the service contract.

After a thorough review of the documents submitted by MGPC, the DOE granted on July 5, 2024 the reinstatement of GRESC No. 2010-02-013 and approved the proposed 5-year Work Program, subject to non-negotiable milestones. MGPC's failure to comply with the milestone shall result in the termination with finality of the GRESC.
